Waste Management

About Us

Clean Capital is a trusted waste management services provider, proudly serving communities and businesses since 2003. With over two decades of experience, we specialize in comprehensive waste disposal and handling solutions tailored to meet the evolving needs of residential, commercial, and industrial clients.

Our commitment to sustainability, public health, and environmental protection drives everything we do. We are a fully licensed and regulated company, operating in strict compliance with the Environmental Protection Agency (EPA). Our operations emphasize safety, efficiency, and environmental responsibility, ensuring that our services not only meet but exceed industry standards. From residential neighborhoods to large-scale industrial zones, we are your reliable partner in keeping spaces clean, safe, and compliant.

Vision & Mission

► Vision

To become Pakistan's leading waste management service provider by integrating innovation, sustainability, and strategic partnerships to reduce environmental impact.

► Mission

To deliver reliable, cost-effective, and eco-friendly waste management services while adhering to the highest standards of operational excellence and regulatory compliance.

► Core Values

Company Background

Establishment and Registration

Clean Capital was officially established in 2003 with a vision to provide professional, reliable, and environmentally responsible waste management solutions. Since its inception, the company has grown from a small regional operator into a trusted name in solid waste disposal and environmental services.

We are a legally registered entity, recognized and authorized to operate under the relevant environmental and municipal laws of our jurisdiction. Our operations are conducted in full compliance with the Environmental Protection Agency (EPA) regulations, ensuring that our processes meet the highest standards of environmental protection and safety. In addition to EPA compliance, Clean Capital is duly registered with the Rawalpindi Waste Management Company (RWMC).

Legal Status and Authorization

Clean Capital operates under binding contractual frameworks that define its rights and obligations, including:

- Adherence to Pakistan's environmental and municipal waste laws.
- Licensed from Environmental Protection Agency (EPA).
- Registered with Rawalpindi Waste Management Company (RWMC).

Services Offered

Clean Capital Waste Management Company delivers comprehensive, compliant, and technology-driven waste disposal solutions tailored to municipal and commercial needs. Our services are designed to ensure efficiency, environmental responsibility, and regulatory adherence while meeting the highest industry standards.

Solid Waste Disposal & Handling

- Safe and systematic disposal of non-hazardous solid waste at designated dump sites, including RWMC's Losar facility (Chakbeil Road, Rawat).
- Compliance with strict waste segregation and transportation protocols to prevent environmental contamination.

Comprehensive Waste Handling

Our services are designed to handle a wide spectrum of waste types generated from residential, commercial, municipal, and industrial sources. Our process begins with the proper segregation and classification of waste at the point of origin. We identify and manage different waste categories, including municipal solid waste (MSW), construction and demolition debris, industrial waste, green (organic) waste, and inert materials. Each type of waste is handled using the most appropriate and compliant method, minimizing risk and maximizing resource recovery.

Smart Waste Collection & Disposal Tools

Our dedicated fleet of collection vehicles facilitates timely and reliable waste collection from client sites. Whether through routine pickups or on-demand bulk removal, our collection process is streamlined to reduce disruption and ensure safety. We also provide a range of specialized bins and containers designed for various waste streams to support proper disposal practices at the source.

Services Offered

Comprehensive Waste Management Solutions for a Cleaner Pakistan

RESIDENTIAL WASTE COLLECTION

Door-to-Door Service Excellence

- ✓ Housing Societies: Customized collection schedules
- ✓ Apartment Complexes: Centralized bin systems
- ✓ Plot Areas: On-demand collection services

➤ Housing Societies: Customized collection schedules

Clean Capital offers specially designed waste collection schedules for each housing society based on its size, population, and daily waste volume. Our team works closely with society management to create routes and timings that avoid disruption and ensure cleanliness. We ensure regular pickups without delays and maintain hygiene standards throughout the area. This tailored approach helps reduce complaints and keeps communities satisfied with clean surroundings.

➤ Apartment Complexes: Centralized bin systems

In apartment complexes, we install and maintain centralized bin areas where residents can easily dispose of their waste. These bins are regularly emptied by our trained staff following a fixed schedule. This system reduces clutter in hallways or stairwells and ensures that all waste is safely collected in one place. Clean Capital also provides guidance on proper waste segregation to support recycling efforts.

➤ Plot Areas: On-demand collection services

For open plots or under-construction areas, we offer on-demand waste collection to keep the surroundings clean and safe. Property owners or contractors can request waste removal services as needed, without being tied to a fixed schedule. This helps prevent illegal dumping and pest issues, especially in rapidly developing areas. Our team responds quickly to requests and ensures that the waste is collected and transported responsibly.

COMMERCIAL & INDUSTRIAL WASTE MANAGEMENT

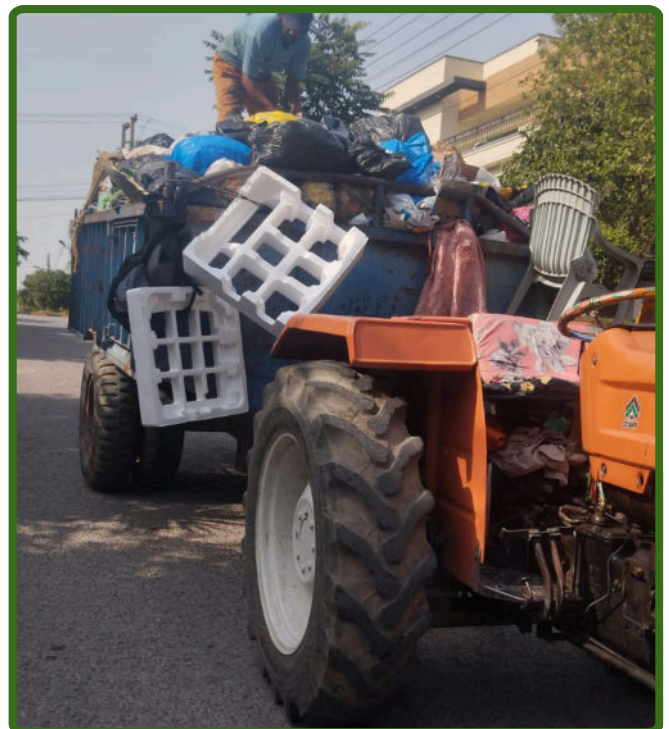

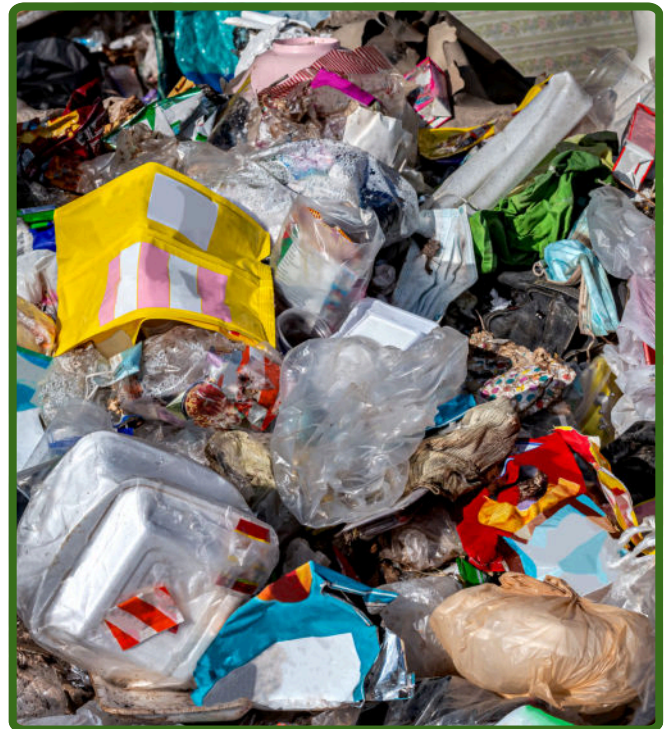

Tailored Solutions for Businesses

- ✓ Hotels & Restaurants: Daily collection of food waste and packaging materials
- ✓ Shopping Malls: Scheduled waste pickup with volume-based pricing
- ✓ Factories & Industries: Specialized handling of non-hazardous industrial waste
- ✓ Embassies & Institutions: Discreet, secure waste removal services

➤ **Hotels & Restaurants: Daily collection of food waste and packaging materials**

Clean Capital provides daily waste collection services to hotels and restaurants, ensuring timely removal of food scraps, packaging, and other disposables. This prevents bad odors, pest problems, and health issues. Our team follows a reliable schedule and uses sealed bins to maintain cleanliness. We also help businesses meet hygiene standards required by health authorities.

➤ Shopping Malls: Scheduled waste pickup with volume-based pricing

We offer scheduled waste collection for shopping malls, taking into account the high volume of waste generated daily. Our pricing model is based on the quantity of waste collected, making it cost-effective for mall management. Waste is sorted and removed without disrupting mall operations or customers. Clean Capital ensures that public areas remain clean and safe for visitors.

► **Factories & Industries: Specialized handling of non-hazardous industrial waste**

Clean Capital handles non-hazardous industrial waste with care and expertise, following EPA-approved procedures. We understand the unique needs of manufacturing and production units, providing dedicated bins and transportation methods. Our service helps factories stay compliant with environmental regulations while avoiding costly penalties. We ensure the waste is safely disposed of at licensed facilities.

➤ **Embassies & Institutions: Discreet, secure waste removal services**

We offer confidential and secure waste removal services for embassies, offices, and sensitive institutions. Our staff is trained to handle such sites with professionalism and discretion, ensuring that privacy and protocols are respected at all times. Waste is collected regularly without causing any disturbance. All services are performed in a secure, EPA-compliant manner.

ALL KIND OF SOLID WASTE DISPOSAL

With more than two decades of industry expertise, we provide end-to-end waste management solutions that are safe, efficient, and environmentally responsible.

- Our services are designed to handle a wide spectrum of waste types generated from residential, commercial, municipal, and industrial sources.
- All collected waste is transported in accordance with EPA guidelines, using secure and well-maintained vehicles that prevent spillage or contamination. Our team follows strict safety protocols during transit to ensure that waste is handled with care and responsibility.

➤ Total Waste Coverage : One Solution for Every Sector

At Clean Capital, we offer full-spectrum waste disposal services designed to meet the unique needs of homes, businesses, public spaces, and industrial zones. From daily household garbage to large-scale factory waste, we handle it all with precision, care, and compliance. Our EPA-certified fleet and trained staff ensure safe transport and responsible dumping, minimizing environmental harm. No matter the type or volume of waste, our goal is simple cleaner communities and a greener Pakistan through reliable, end-to-end waste solutions.

MOSQUE CLEANING SERVICES

✓ Mosques & Prayer Facilities:

- Every Friday cleaning, washing and sanitization of prayer halls, ablution areas, and courtyards
- Timely moping and grooming aligned with prayer schedules and community events
- Use of eco-friendly and halal-certified cleaning products for spiritual and environmental integrity

SPECIAL EVENT WASTE SOLUTIONS

Temporary Waste Management Services

- ✓ Wedding Halls: Post-event cleanup crews
- ✓ Religious Gatherings: High-capacity temporary bins
- ✓ Community Events: End-to-end waste management

➤ Wedding Halls: Post-event cleanup crews

After wedding events, our trained cleanup teams arrive promptly to collect all leftover waste, including food disposals, packaging, and decorations. We ensure the venue is cleaned thoroughly and quickly, so it's ready for the next event. Our service helps reduce the stress for event organizers and leaves the space spotless. All waste is properly sorted and transported according to EPA standards.

➤ Religious Gatherings: High-capacity temporary bins

For large religious events where many people gather, we place strong, high-capacity bins around the area to manage increased waste. These bins are regularly emptied by our staff during and after the event. This keeps the surroundings clean and safe for all participants. We also coordinate with organizers to ensure waste is handled without disrupting the event.

➤ Community Events: End-to-end waste management

Whether it's a public fair, awareness walk, sports day, or festival, we provide complete waste solutions from bin setup and monitoring to collection and disposal. Our team works on-site to keep the area clean throughout the event. After it ends, we ensure the location is fully cleaned and restored. This service helps event organizers maintain a positive and eco-friendly reputation.

RECYCLING MANAGEMENT

Sustainable Material Recovery

- ✓ Recyclable Material Collection: Direct purchase from societies
- ✓ Material Sorting: Paper/plastic/metal segregation
- ✓ Factory Partnerships: Ethical recycling channels

➤ **Turning Waste into Worth ; Smart Recycling Solutions**

Clean Capital promotes a cleaner environment by recovering valuable materials from everyday waste. We directly collect recyclable items like paper, plastic, and metal from housing societies and communities, offering fair prices and easy pickup. Our team then carefully sorts the materials to ensure proper recycling. Through strong partnerships with trusted recycling factories, we make sure all recovered waste is processed ethically and reused responsibly reducing landfill pressure and supporting a circular economy.

ANIMAL & STRAY CONTROL SERVICES

Humane Community Solutions

- ✓ Stray Dog Management: For contracted communities
- ✓ Eid-ul-Adha Cleanup: Offal of sacrificial animal at Eid-ul-Adha
- ✓ Dead Animal Removal: 24/7 emergency service

➤ Eid-ul-Adha Cleanup ; Swift & Hygienic Offal Removal

During Eid-ul-Adha, Clean Capital provides dedicated waste management services to handle the large volume of animal waste generated during sacrificial rituals. Our teams operate on high alert, offering timely collection and disposal of offal and remains to prevent foul smells, disease spread, and environmental pollution. We use sealed vehicles and eco-friendly disinfectants to ensure public health and cleanliness across neighborhoods, streets, and designated slaughter areas. With Clean Capital, communities can focus on the spirit of Eid while we take care of the cleanup.

BIN & BAG SUPPLY SOLUTIONS

To support organized and hygienic waste disposal, Clean Capital provides high-quality waste bins and disposable bags to residential communities, commercial areas, and event venues. These resources help ensure that waste is stored properly before collection, reducing littering and environmental hazards. Our bin and bag distribution service is tailored to the needs of each site, whether it's for daily household use or large-scale public gatherings.

➤ Bin Distribution

We supply durable and easy-to-handle waste bins in various sizes for homes, buildings, markets, and public spaces. These bins are designed to support proper waste segregation and storage, helping our collection teams work more efficiently. We also place additional bins at high-traffic areas during events or peak seasons to manage extra waste.

➤ Disposable Bag Distribution

Clean Capital provides eco-friendly disposable bags to households, vendors, and communities for clean and safe waste packaging. These bags are especially useful during Eid, public events, or construction activities where waste needs to be securely tied and removed. Our team ensures timely distribution so residents can participate in maintaining a tidy environment.

Value-Added Services

Expanding Our Reach!

All Clean Capital services from residential waste pickup to commercial disposal are now available throughout Islamabad and Rawalpindi.

Partnerships and Collaborations

Clean Capital Waste Management Company has established strategic alliances with key stakeholders to enhance service delivery, ensure compliance, and promote sustainable waste management practices.

Key Partnership: Rawalpindi Waste Management Company (RWMC)

A legally binding Contract Agreement for Solid Waste Disposal Services, renewable each year.

Licensed from Environmental Protection Agency (EPA)

Permission to collection of Municipal/Non-hazardous waste from of Islamabad.

Scope of Collaboration

- Clean Capital is permitted to offload waste at RWMC's Losar dumpsite (Chakbeil Road, Rawat) under strict guidelines.
- Compliance with RWMC's operational protocols, including waste non-toxicity and covered transportation requirements.

Mutual Benefits

- For Clean Capital: Access to approved disposal infrastructure, regulatory support, and scalability.
- For RWMC: Ensured proper waste handling, reduced illegal dumping, and shared environmental accountability.

Why Choose Us?

- ✓ Regulatory Compliance: Full alignment with Pakistan's environmental laws and RWMC guidelines.
- ✓ Dedicated Team: Our dedicated staff is committed to delivering reliable, safe, and environmentally responsible services with integrity and efficiency
- ✓ Eco-Conscious: Strict non-toxic, non-hazardous waste policies to protect communities.

Operational Framework

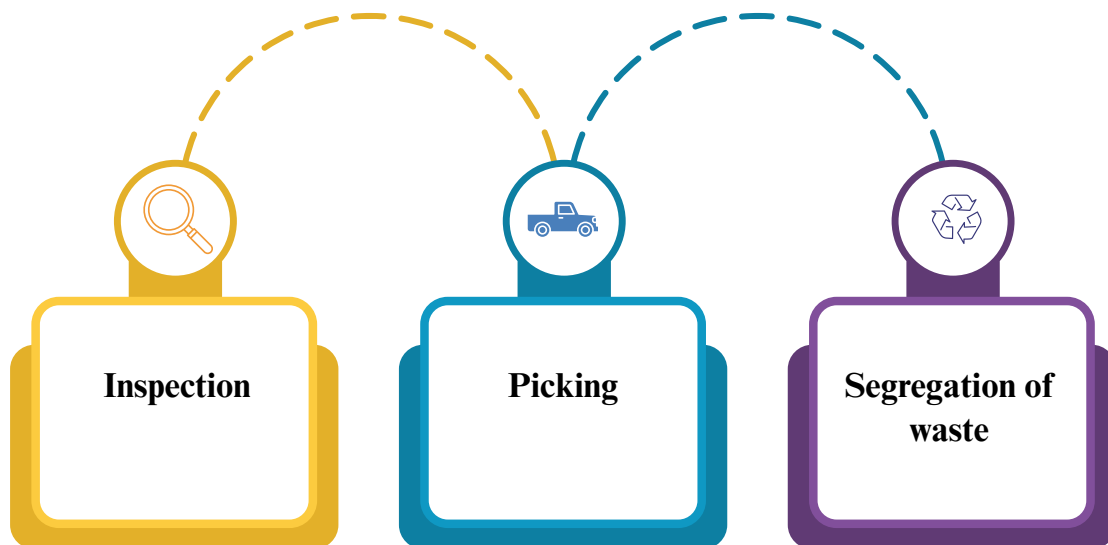

Clean Capital operates under a structured, transparent, and compliance-focused framework to ensure seamless waste management services.

1. Inspection & Survey

Our process begins with a comprehensive inspection and survey of the area, society, or premises to be serviced. This phase allows our team to assess waste generation patterns, identify optimal collection points, and tailor our services according to the specific needs of the location. Accurate surveying ensures smooth execution in all subsequent phases.

2. Waste Collection (Picking)

Following the survey, our trained field staff initiate waste collection, often referred to as picking. Using EPA-compliant collection vehicles, we carry out timely and systematic pickups to maintain hygiene and cleanliness. Our teams follow fixed schedules and are equipped to handle various waste categories efficiently.

3. Segregation of Waste

Once the waste is collected, we proceed to the segregation phase, where materials are sorted into different categories such as general waste, recyclable materials, and organic waste. This critical step helps in reducing landfill load and supports recycling efforts by ensuring that valuable materials are recovered and processed separately.

4. Quality Control and Operational Reporting

After segregation, waste is loaded and transported using specialized, sealed vehicles that comply with environmental and safety standards. Our transportation phase ensures that all collected and categorized waste is moved securely to designated disposal or recycling facilities with zero spillage or environmental risk.

5. Final Disposal & Weighbridge Measurement

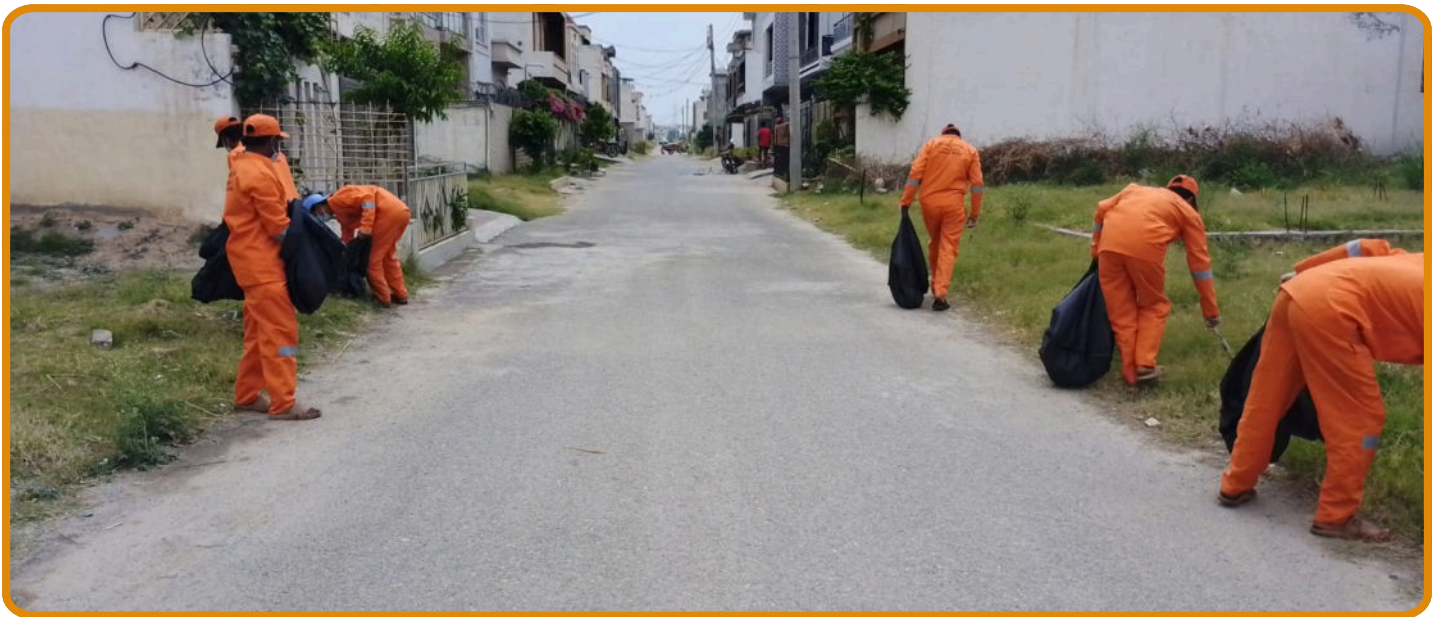

In the final phase, the non-recyclable and residual waste is handed over for dumping and disposal, which is carried out under the supervision of the Rawalpindi Waste Management Corporation (RWMC). RWMC also conducts weighbridge measurement to ensure proper documentation and accountability. This step ensures that waste quantities are tracked accurately and disposed of responsibly, in line with all regulatory requirements.

Compliance and Legal Aspects

Clean Capital Waste Management Company strictly adheres to national regulations and contractual obligations to ensure lawful and environmentally responsible operations. The company complies with Punjab's Waste Management Rules, which mandate the disposal of only non-toxic, non-hazardous waste and require covered transportation to prevent environmental contamination and we also have license from Environmental Protection Agency (EPA).

Confidentiality is a cornerstone of Clean Capital's operations, with both parties legally bound to protect sensitive information and refrain from unauthorized data sharing. Any modifications to the agreement require written consent, ensuring transparency and accountability. All legal matters fall under the jurisdiction of Pakistani courts, providing a clear framework for enforcement and compliance.

Future Growth Strategy

Clean Capital is strategically positioned for expansion through contract renewals and extensions with existing partners while actively pursuing new growth opportunities in emerging waste management sectors. The company plans to capitalize on Pakistan's growing environmental needs by expanding its service portfolio and geographic reach, leveraging its proven operational expertise and compliance track record to secure additional municipal and commercial contracts. This forward-looking approach ensures sustainable scaling while maintaining service excellence in core operations.

Leadership

Clean Capital Waste Management Company is led by Mr. Mati Ullah, the licensed and authorized owner of the company. , Mr. Mati Ullah serves as both the primary stakeholder and operational decision-maker, ensuring compliance with all regulatory and contractual obligations.

Clean Capital Team

Strategic Partnership with IMARAT Group

Clean Capital Waste Management Company has proudly entered into a formal agreement with IMARAT IBD (SMC-PVT) Limited, one of Pakistan's leading real estate developers, for the municipal waste management of their flagship IMARAT Downtown project located at Mouza Lohi Behr, Zone V, Islamabad Expressway, Islamabad.

Under this agreement, Clean Capital will be responsible for the collection, handling, transportation, and proper disposal of all municipal waste generated at the IMARAT Downtown site. Our services will be carried out in strict compliance with Environmental Protection Agency (EPA) regulations and local municipal standards to ensure that waste is managed in a safe, hygienic, and environmentally responsible manner.

Contract Highlights

- Scope of Work: Central point waste collection, proper handling, and safe disposal.
- Contract Duration: 12 months (1st July 2025-30th June 2026).
- Payment Terms: One-time lump sum payment of Rs. 120,000 (exclusive of taxes).
- Compliance: Full adherence to environmental laws, safety protocols, and waste disposal standards.
- Termination Clause: 30-day written notice by either party in case of breach or non-performance.

Commitment to Excellence

This partnership reflects IMARAT's trust in Clean Capital's operational expertise, reliability, and commitment to sustainability. By delivering timely and efficient waste management solutions, we are helping maintain the highest standards of cleanliness and environmental care at one of the most prestigious development sites in the region.

This collaboration stands as a testament to Clean Capital's growing reputation as a trusted partner for large-scale and high profile waste management projects across Pakistan.

EPA License For Municipal Waste

GOVERNMENT OF PAKISTAN
MINISTRY OF CLIMATE CHANGE
PAKISTAN ENVIRONMENTAL PROTECTION AGENCY
PLOT NO # 42, STREET NO # 6, H/8-2
ISLAMABAD

F. No. 2(1)/2019-EE/TT-Dir/21

Dated: 29th April, 2025

SUBJECT: PERMISSION TO COLLECTION OF MUNICIPAL / NON-HAZARDOUS WASTE FROM OF ISLAMABAD

Please refer your letter No. Nil, dated 09-04-2025 on above cited subject and to state that this Agency has reviewed and scrutinized the Environmental Management and Monitoring Plan (EMMP) submitted by Mr. Mati Ullah, Chief Executive Officer, M/s Clean Capital.

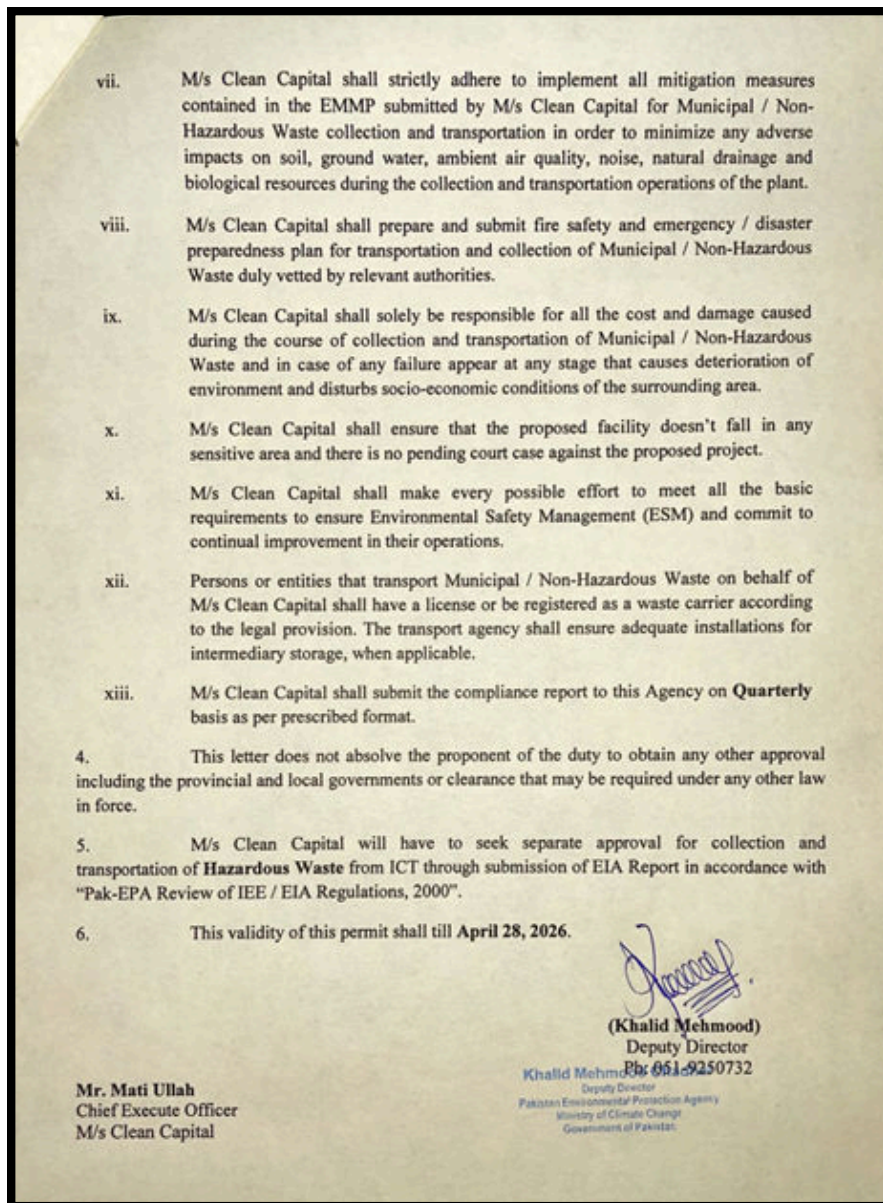

2. It is apprised that the projects of instant nature / category (i.e. collection of non-hazardous/general waste) are not specifically covered under either Schedule-I or II of "Pak-EPA Review of IEE/EIA Regulations, 2000".

3. However, based on the above scenario and EMMP, M/s Clean Capital may collect "Municipal / Non-Hazardous Waste" ONLY from Islamabad Capital Territory (ICT) subject to the compliance of following directions of this Agency under Section 6 (m) of Pakistan Environmental Protection Act, 1997;

- i. M/s Clean Capital shall employ and use safe and closed container for the transportation of Municipal / Non-Hazardous Waste.
- ii. The vehicles, pipelines and equipment for the transportation of the Municipal / Non-Hazardous Waste shall be in a state as not to cause the scattering of, or emitting of noxious smells from the waste.
- iii. M/s Clean Capital shall be liable to implement mechanism to maintain record of specific type and quantities of Municipal / Non-Hazardous Waste alongwith the identification of sources / quantities from, where the waste had been received. Daily material flow (in and out) of the facility shall also be recorded.
- iv. Municipal / Non-Hazardous Waste shall be properly segregated and stored in containers, tanks, or containment buildings. Safe and closed containers must be kept closed and marked with the date on which hazardous waste accumulation began. Tanks and containers are required to be marked with the word "Non-hazardous waste".
- v. Municipal / Non-Hazardous Waste to be transported must be packaged and labeled according to category or type of waste.
- vi. The import of hazardous waste is prohibited for disposal purposes within all areas under Pakistan's jurisdiction.

EPA License For Municipal Waste

Clean Capital is proud to be a licensed operator by the Environmental Protection Agency (EPA), a distinction that highlights our unwavering commitment to environmental safety, regulatory compliance, and sustainable waste management practices.

Being EPA-certified allows Clean Capital to legally and ethically manage various waste streams including residential, commercial, and industrial while assuring our clients that all activities are performed under the highest environmental standards.

Our EPA license reinforces the trust that clients place in us, assuring them that they are working with a waste management partner that prioritizes legal compliance, environmental ethics, and operational excellence.

At Clean Capital, we don't just handle waste, we protect the environment, one collection at a time.

Why the EPA License Matters

Obtaining an EPA license is not just a regulatory requirement—it is a clear indicator of our operational integrity, technical capabilities, and dedication to eco-friendly waste handling. The EPA ensures that all licensed waste management companies meet stringent environmental standards in areas such as:

- Waste collection, transportation, and disposal
- Segregation and recycling protocols
- Pollution control and resource conservation
- Worker safety and public health safeguards

EPA License For Non-Hazardous Waste

- v. Non-Hazardous waste to be transported must be packaged and labeled according to category or type of waste.
- vi. The import of hazardous waste is prohibited for disposal purposes within all areas under Pakistan's jurisdiction.
- vii. M/s Clean Capital shall strictly adhere to implement all mitigation measures contained in the EMMP submitted by M/s Clean Capital for Non-Hazardous waste

EPA License For Non-Hazardous Waste

Clean Capital is also officially licensed by the Environmental Protection Agency (EPA) for the collection and handling of non-hazardous industrial waste from industries operating within the Islamabad Capital Territory. This license authorizes us to operate in full compliance with local environmental regulations, under the provisions outlined by the (EPA).

This License allows us to serve a wide range of industrial clients, ensuring that their non-hazardous waste is collected, transported, and managed responsibly—without posing a threat to public health or the environment. Our EPA license not only confirms our technical and operational capacity but also demonstrates our commitment to environmental sustainability and industrial safety.

- collection and transportation in order to minimize any adverse impacts on soil, ground water, ambient air quality, noise, natural drainage and biological resources during the collection and transportation operations of the plant.
- viii. If the options for reuse, recovery, or recycle exhausted for Non-Hazardous waste then depending on the category of that waste, possible options for physico-chemical/biological treatment, incineration, or any other mode of safe and environmentally sound disposal will be adopted.
 - ix. M/s Clean Capital shall prepare and submit fire safety and emergency / disaster preparedness plan for transportation and collection of Non-Hazardous waste duly vetted by relevant authorities.
 - x. M/s Clean Capital shall solely be responsible for all the cost and damage caused during the course of collection and transportation of Non-Hazardous industrial waste and in case of any failure appear at any stage that causes deterioration of environment and disturbs socio-economic conditions of the surrounding area.
 - xi. M/s Clean Capital shall ensure that the proposed facility doesn't fall in any sensitive area and there is no pending court case against the proposed project.
 - xii. M/s Clean Capital shall make every possible effort to meet all the basic requirements to ensure Environmental Safety Management (ESM) and commit to continual improvement in their operations.
 - xiii. Persons or entities that transport Non-Hazardous waste on behalf of M/s Clean Capital shall have a license or be registered as a waste carrier according to the legal provision. The transport agency shall ensure adequate installations for intermediary storage, when applicable.
 - xiv. M/s Clean Capital shall submit the compliance report to this Agency on **Quarterly** basis as per prescribed format.
4. This letter does not absolve the proponent of the duty to obtain any other approval including the provincial and local governments or clearance that may be required under any other law in force.
 5. M/s Clean Capital will have to seek separate approval for collection and transportation of **Hazardous Waste** from the industries of ICT through submission of EIA Report in accordance with "Pak-EPA Review of IEE / EIA Regulations, 2000".
 6. This validity of this permit shall till **April 28, 2026**.

MOU with NCLSW (NGO Partner)

MOU with NCLSW (NGO Partner)

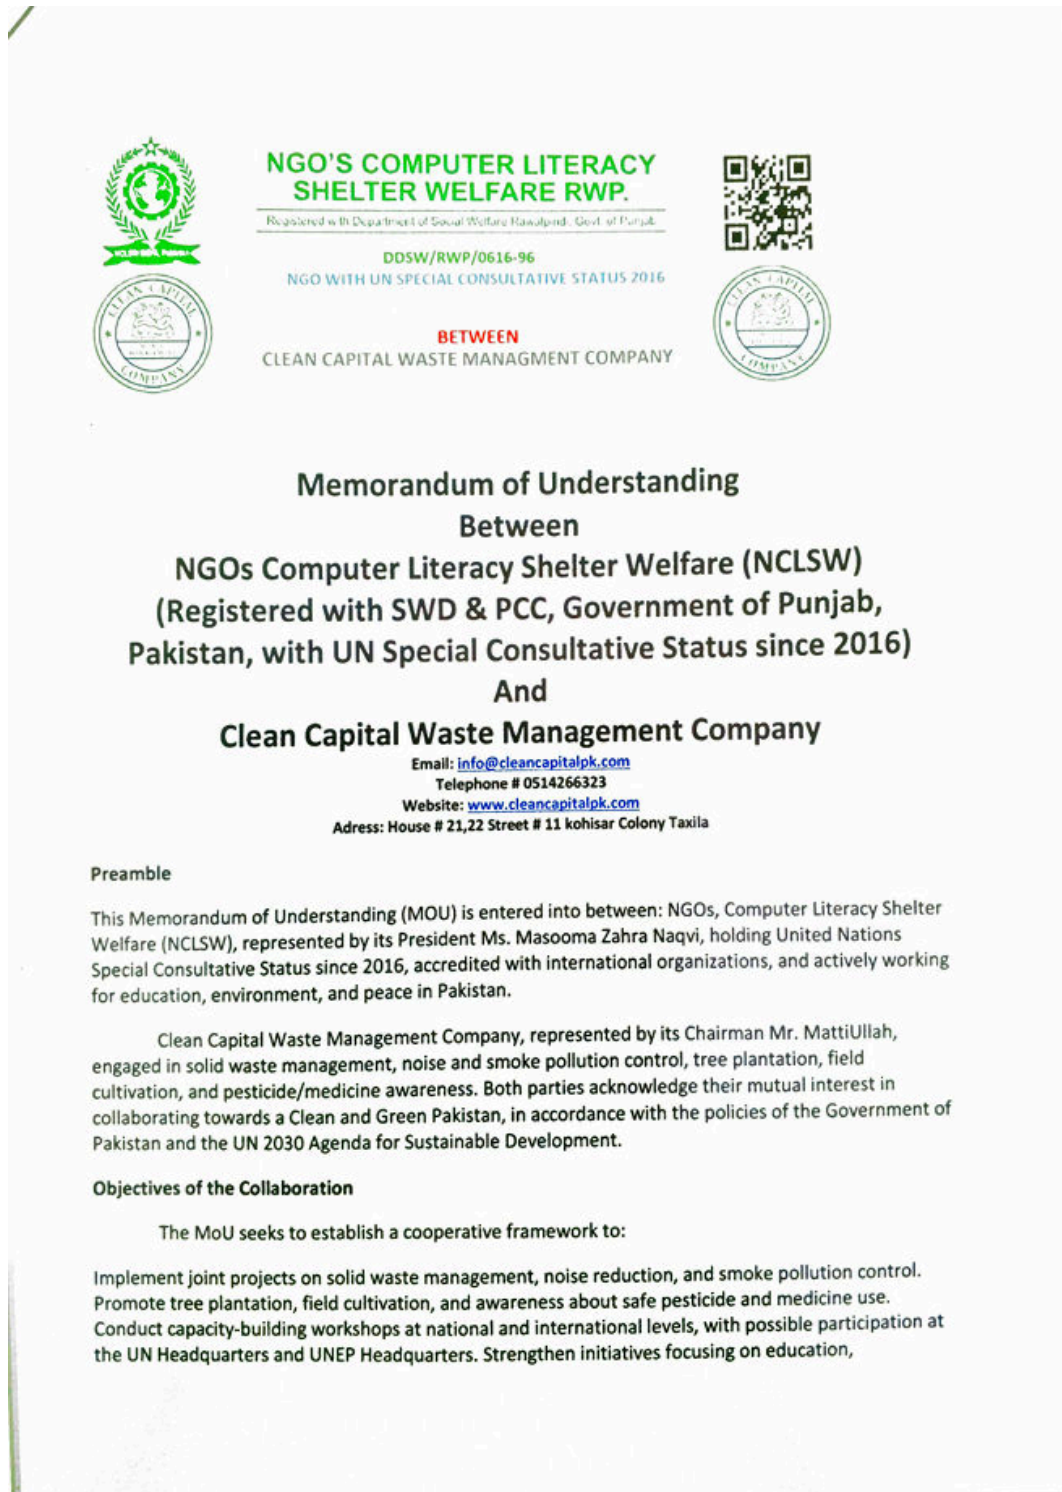

Clean Capital Waste Management Company has signed a Memorandum of Understanding (MoU) with NGO's Computer Literacy Shelter Welfare (NCLSW), an organization accredited with the United Nations and actively engaged in education, environment, and peacebuilding projects in Pakistan. This partnership aims to combine Clean Capital's operational expertise in waste management with NCLSW's international outreach and policy alignment. Together, both organizations will work towards a Clean and Green Pakistan, in line with the Government of Pakistan's vision and the UN 2030 Agenda for Sustainable Development.

Under this MoU, Clean Capital will provide its machinery, vehicles, workforce, and technological support, while NCLSW will facilitate policy direction, awareness campaigns, and participation in international forums. The collaboration will cover joint initiatives on solid waste management, noise and smoke pollution control, tree plantation, and field cultivation. Both parties will also conduct capacity-building workshops, training programs, and awareness drives to promote sustainable practices at local, national, and international levels. This long-term cooperation, effective for three years, demonstrates Clean Capital's commitment to expanding its role as not just a service provider but also a partner in environmental education and sustainable development.

**“Together for a Cleaner, Greener Pakistan.
A Partnership for Sustainable Change.”**

MOU with NCLSW (NGO Partner)

MOU with NCLSW (NGO Partner)

environment, and peace building. Collaborate with the Christian Studies Center (CSC) for training and implementation programs.

Roles and Responsibilities

NCLSW Shall:

Provide accreditation and facilitation for participation of Clean Capital Waste Management members in international forums. Organize capacity-building workshops, training sessions, and awareness campaigns. Ensure all projects comply with UN agencies' SOPs and Government of Pakistan's policies. Provide oversight and guidance through the President and Director Environment.

Clean Capital Waste Management Shall:

Implement projects in line with the SOPs of NCLSW. Carry out initiatives on waste management, pollution reduction, and plantation drives. Nominate Mr. Saeed Ahmed as Project Manager, who will coordinate operational activities under the supervision of NCLSW's Director Environment. Fully cooperate with NCLSW in joint training programs and campaigns.

Branding and Representation

In all project activities, workshops, and public awareness campaigns, the name and logo of Clean Capital shall be mandatorily included as a partner. At national and international forums, Clean Capital will be presented as a recognized partner.

Data & Reporting Rights

Clean Capital shall have joint ownership of all collected data related to waste management and environmental matters. Clean Capital shall have the right to publish its own performance reports separately, provided these remain in compliance with the principles of NCLSW/UN.

Resources Utilization

Clean Capital will provide machinery, vehicles, and workforce (e.g., drivers, labor) for the projects, and full control over these resources shall remain with the company. NCLSW will provide only guidance, policy direction, and international coordination. Clean Capital shall not be held liable for any unrelated legal or financial responsibilities.

Technology & Innovation

Clean Capital will deploy modern technologies, including GPS-based tracking systems and automated record-keeping facilities, to ensure transparency. These measures shall be considered an integral part of the MoU to avoid any future disputes.

Tenure & Review

This MoU shall initially remain effective for three (3) years, with an annual performance review. Based on the review, the MoU may be extended or modified.

MOU with NCLSW (NGO Partner)

Governance & Compliance

Both parties shall strictly adhere to the SOPs of NCLSW, as well as the regulations of the Government of Pakistan and relevant UN agencies. All project activities shall be jointly supervised by the President, NCLSW, and the CEO/Chairman of Clean Capital Waste Management Company.

Duration & Termination

This MoU shall remain effective unless terminated. The MoU shall automatically terminate in the event of a violation by either party. Termination shall be subject to mutual understanding and written consent from both parties.
